SUMMARY

Final-year Software Engineering student specializing in Web Development with React, Next.js, TypeScript, and Node.js. Seeking a Web Developer role to contribute to impactful products and deliver high-quality user experiences.

EDUCATION

Industrial University of Ho Chi Minh City (IUH) 2022 - Present

Major: Software Engineering

Expected Graduation: Dec 2026

SKILLS

Frontend HTML - CSS - Tailwind CSS - Shadcn - JavaScript - TypeScript - ReactJS - NextJS.

Backend Node.js - Express - RESTful APIs - WebSocket (Socket.io).

State & Data Zustand - Axios - MongoDB - PostgreSQL

Tools Git - GitHub - Figma - Postman.

PROJECTS

ChatPulse - Real Time Chat Application Jan 2026 - May 2026

Type: Team Project | Role: Team Lead

Techstacks: ReactJS | TypeScript | Tailwind CSS | Zustand | Socket.io | LiveKit | Express | MongoDB

Responsibilities:

- Developed real-time chat with Socket.IO for private and group conversations.
- Established scalable file and image management using Amazon S3 for secure cloud storage.
- Delivered low-latency 1-to-1 and group video calls through LiveKit integration.
- Implemented role-based group management, enabling member invitations and administrative controls.
- Deployed a RAG-based AI assistant for Vietnamese traffic regulations, hosted on Vercel and Railway.
